

WBE Telescopic extraction arm

Description

Compact and easy to handle telescopic extraction arm. Specially designed for small workplaces and premises with low ceilings. Suitable for extraction of light dust and fumes. Reliable maintenance-free telescopic mechanism also ensures appropriate self-support and positioning of the unit.

Industries and applications

- Electronics
- Welding
- Chemical industry
- Precision engineering

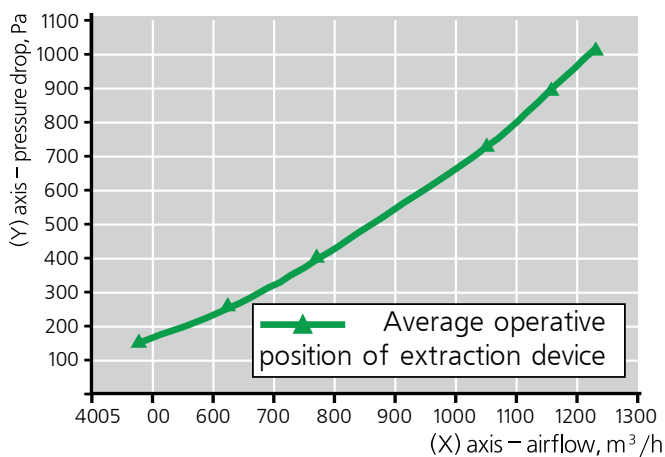

Features

- Telescopic design
- Various mountings
- Ready for direct fan connection
- Built-in damper
- Easy positioning
- Maintenance-free internal mechanisms
